

Monthly Meeting Notes

PCRC Club Meeting on 17 Feb 2025

The meeting was held at 7pm, February 17 at the *Holiday Inn Express, Winchester*.

Members attending:

Tom Carney Cliff Andrea Jason Baker Jim Corey Paul Dwyer Luther Hux
Lee Konopa Dan Rodgers George Saar Dave Terrell Gene Zagorsky Dave Zona

- **Treasurer's Report-** copy attached.
- **Old Business**
 - **Flying Site Improvement Grant (FSIG)-** The final submission was made on 31 Jan.
- **New Business**
 - **“Leader Club” Program-** evaluators of our FSIG application suggested that the PCRC consider becoming an AMA Leader Club. The requirements for that designation are not onerous. Tom Carney volunteered to write up an overview of the process and send to the membership for review and comment.
 - **Indoor Flying-** Tom C. thanked Dan Rodgers for reaching out to the Wilkins Center and inquiring about the possibility of using their facility for indoor flying. They could not help us now, but did leave the door open for possibly accommodating us in the future.
 - **Field Safety-** Dave Zona, Safety Officer, has taken the lead on formalizing our safety code and reviewing our equipment/supply needs (e.g. fire extinguishers and blankets). He will assemble a list of items required with cost estimates for consideration at the next meeting.
 - **Lock Combinations-** Jim Corey will change the lock combinations during the next several weeks. Members will be updated via email.
 - **Calendar 2025-** There was a general discussion of the group activities and community outreach activities that the club has participated in during recent years. In many cases, the limiting factor to future participation is having an adequate number of volunteers to support such activities.
 - **Checkbook-** Tom Carney will become an authorized signer of checks, as backup to the Treasurer Jim Corey.
 - **Welcome new member Dave Terrell,** an experienced flyer coming to us from the Loudoun club.
 - **Show& Tell-** George Saar showed us his recently constructed *S.E.5a* park flyer from Dancing Wings Hobby. The construction was very unusual; it has a lightweight balsa frame with a sheet foam covering.

Monthly Meeting Notes

PCRC Club Meeting on 17 Feb 2025
